

I understand that giving priority to LPFM over FM translators could force K-LOVE radio off the airwaves in many areas. I listen to K-LOVE every day in my car. There are no other local stations that provide the same type of format of positive, encouraging value based programming in our area with the Christian music that my family enjoys. An added benefit is that K-LOVE is commercial free and lets us know about local Christian events and programs in our area. K-Love serves the public good because it allows people to express their constitutional rights of freedom of religion. It is also one of the few stations that parents can have on in the car without worrying if their children will hear adult language and content. I believe that K-LOVE has a great impact on communities all across America.
